

ALOHA programs are an instructor-led language program with an emphasis on

**Mind Math & Reading/Writing**

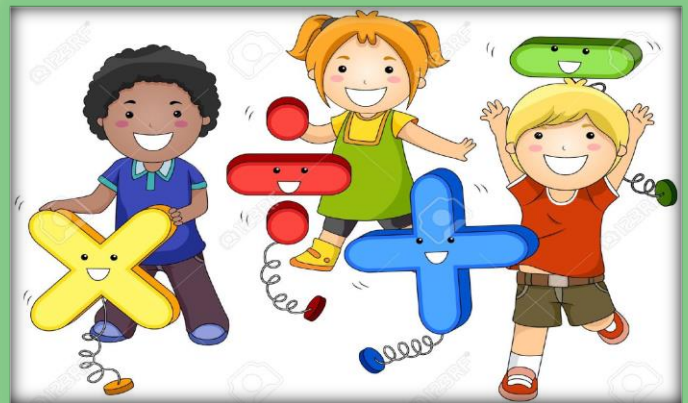

Join the parents of more than 3 million students worldwide enrolled in ALOHA programs. **DISCOVER THE GENIUS IN YOUR CHILD!**

Highly-Effective and Hugely-Affordable program

A student can be enrolled at any point during the school year.

Small-group Classes ensure that your child receives step-by-step instruction from a qualified & trained teacher. Considering academic & social needs, ALOHA instructors provide weekly assessments of student progress & development.

**Small Classes = Big Results**

**In a short period of time, progress is seen in:**

- ~ **Math Skills**
- ~ **Attention Span**
- ~ **Visualization & Listening Skills**
- ~ **Memory & Observation**
- ~ **Logical Reasoning Skills**

## **ALOHA Mind Math**

### **PROGRAM – AGES 5-12**

Beginning with the use of an abacus, the ALOHA method trains children to perform calculations in their minds!

- # Trains the brain so students develop their passion for math
- # A proven international method for whole brain development
- # Improves your child's ability to perform complex mental calculations
- # Enhances all-around academic success
- # Mind Math is held after school, once a week for a 2-hour session
