

## Elementary Science Olympiad 2017-18

Science Olympiad is an exciting competition for students to explore the world of science and to show off their science skills. The Science Olympiad is a rewarding experience for anyone who participates, as it builds strong life skills like teamwork, thinking on your feet, and organization/management.

Science Olympiad prepares students for middle school and high school science competitions and also gives lots of awards!

### Who can participate?

4<sup>th</sup> and 5<sup>th</sup> Graders in teams of 6 (each team must be from the same school)
